The Board of the Studio City Neighborhood Council (SCNC) *supports* Council File 24-1533 to instruct the Department of Recreation and Parks, Bureau of Engineering, Los Angeles Sanitation, and the Los Angeles Fire Department with the assistance of the Sepulveda Basin Wildlife Areas Steering Committee (SBWASC) to:

A. Report to the Council within 60 days on a work plan that addresses a combination of both the control and removal of all invasive species within and in the medians surrounding the Sepulveda Basin. The work plan goals should articulate what can be done in a one, three, five, eight and ten year timeline.

B. Develop a plan to promote colorful and vibrant native Californian plant species that bloom year-round and/or seasonally and have them exponentially increase in quantity within the Sepulveda Basin and in the medians surrounding the Sepulveda Basin.

9. CF 24-0602 - Artificial Turf

ACTION: Possible Motion suggested by Adele Slaughter

Support if amended The Reseda Neighborhood Council supports the motion in CF 24-0602 if amended to begin a transition away from artificial turf. The Reseda Neighborhood Council supports a ban on artificial turf in both public and private spaces due to the consequences of artificial turf installations in Los Angeles. Now that California's SB 676 has been signed into law, cities across the state are considering banning artificial turf, and the City of Los Angeles has an opportunity to be a leader in this area. Artificial turf has been a distraction from our environmental goals of making more sustainable landscaping choices. There are several cost efficient alternatives to artificial turf such as native plants and grasses. False promises of water savings have come instead with great expense, in addition to increased urban heat island effect; loss of water permeability; toxic runoff pollution of PFAS and other toxic chemicals into our drinking and other water supplies; increased microplastics in our lakes, rivers, and ocean; sports injuries; and devastating loss of urban habitat during the greatest biodiversity crisis in human history. Also, artificial turf is a petroleum-based product at a time when we need to be moving away from fossil fuels.

10. L.A. Sanitation - Proposed Single-Use Printer Cartridges Ban
