Honorable Hyde Feldstein Soto, City Attorney

Greetings:

SEEKING COMMUNITY MEMBERS FOR DEPARTMENT OF AGING ADVISORY COUNCIL ON AGING

The Older Americans Act mandates that the Council on Aging be the principal advocacy body for seniors and disabled individuals in the City of Los Angeles. The Los Angeles Department of Aging is reaching out to the City's elected officials to request assistance in identifying civically minded seniors sixty years of age and older to join our Advisory Council on Aging.

Once identified, staff will follow up with these older adults to answer any questions and have them complete an application for membership.

The role of the Advisory Council on Aging is to provide older adults who reside in the City the opportunity to lend their insights into our community planning process, identify emerging needs and make recommendations on how to best serve seniors in the City of Los Angeles.

Please take a moment to identify civically minded seniors that would be interested in serving as a volunteer on the Department's Advisory Council on Aging. They can contact Zipora Gipson, Social Worker I, at (213) 202-5635 or via email at zipora.gipson@lacity.org to obtain more information and an application.

Sincerely,

JAIME PACHECO-OROZCO
General Manager
